RAJANT

Sales Engineer – Latin America (LATAM)

RAJANT CORPORATION is the global leader and pioneer of patented **Kinetic Mesh®** networking, powering mission-critical connectivity for autonomous systems, industrial operations, defense, mining, manufacturing, energy, logistics, and other demanding environments worldwide. For more than 25 years, Rajant has helped organizations connect people, machines, assets, and data through its **Mesh-Over-Everything™** architecture and distributed edge computing platform.

Together with its subsidiary, **Rajant Health Incorporated (RHI)**, Rajant is advancing Industrial AI, automation, mobility, and real-time operational intelligence—bringing resilient connectivity wherever people, machines, and data move.

POSITION OVERVIEW: Rajant is seeking an experienced **Sales Engineer** to support Latin America (LATAM) Sales and Business Development teams, customers, distributors, resellers, and channel partners across the region. This customer-facing role combines wireless/RF expertise, solution design, field validation, partner enablement, and technical sales support.

KEY RESPONSIBILITIES:

- Partner with Sales & Business Development to qualify opportunities and develop Rajant network solutions.
- Conduct site surveys, network audits, RF assessments, solution design, and performance planning.
- Support Proofs of Concept, demonstrations, field trials, deployments, and technical troubleshooting.
- Provide technical support, network design guidance, and training to partners, resellers, and customers.
- Develop network architectures, RF link plans, bills of materials, and technical documentation.
- Collaborate with Sales, Engineering, Product, and Support; travel to customer and partner locations as required.

REQUIRED QUALIFICATIONS:

- 3+ years of customer-facing Sales Engineering, Solutions Engineering, Field Engineering, or similar experience with wireless networking and/or RF systems.
- Strong knowledge of 802.11 wireless networking, RF fundamentals, link budgeting, antennas, interference, and network performance.
- Working knowledge of Ethernet, Layer 2 networking, VLANs, Spanning Tree, and TCP/UDP concepts.
- Experience with network design, site surveys, Proofs of Concept, and field troubleshooting.
- Strong customer-facing communication, presentation, and technical training skills; professional fluency in Spanish and English.
- Ability to travel throughout Latin America and occasionally internationally; valid passport and eligibility for required business travel.

PREFERRED QUALIFICATIONS:

- Wireless planning tools such as Radio Mobile, MLinkPlanner, Ekahau, or similar.
- Microwave PtP/PtMP, fiber, industrial networking, or mission-critical communications experience.
- Cisco CCNA/CCNP or comparable certification; Portuguese proficiency; experience in industrial automation, robotics, IIoT, mining, energy, or defense.

CANDIDATE PROFILE: Technically credible and customer-focused, with the ability to translate application requirements into practical network solutions and communicate effectively with technical and non-technical audiences.

WHY JOIN RAJANT?

- Work with patented Kinetic Mesh® technology supporting mission-critical connectivity where traditional networks fall short.
- Collaborate with customers, partners, engineers, and sales teams across diverse industrial, autonomous, and defense applications.
- Help shape real-world solutions at the intersection of resilient networking, mobility, edge intelligence, and Industrial AI.

RAJANT'S COMPANY PROFILE: www.rajant.com

Our patented InstaMesh Kinetic Mesh technology powers mission-critical operations around the world:

- Autonomous mining equipment across global sites.
- Robotics in factories and warehouses automating repetitive and dangerous tasks.
- Boston Dynamics' Spot® the Robot Dog and various aerial drones.
- Oil and Gas connectivity and Maritime Port automation worldwide.
- Mission-critical communication systems trusted by the U.S. Army to keep America and our Global partners safe.

READY TO BUILD WHAT'S NEXT? If you're ready to help customers solve complex connectivity challenges with resilient, mobile networking technology, we'd love to hear from you. Apply Today.

Reports to: SE Director, Americas. **Employment Type:** Full-Time; benefits per country of employment. **Location:** Remote. Based in Latin America, preferably near a major airport. **Training:** Online Technical & Sales Training must be completed within the first month of employment. **Apply:** Introduce yourself w/ cover letter & resume to: jointheteam@rajant.com.
