MANUFACTURING EXCELLENCE

Rajant Receives Fifth Consecutive Year ISO 9001:2015 Recertification

Rajant was recertified for the fifth consecutive year as International Organization for Standardization (ISO) 9001:2015-compliant. The original ISO 9001:2015 Quality Management System (QMS) certification was achieved on March 7, 2019, when Rajant demonstrated compliance with the development, technical support, and manufacturing of secure network radios at its Morehead, Kentucky facility.

Find Paths to New Revenue - Attend the Summit

2023 Rajant Partner Summit

Verdura Resort
May 8-11, 2023 | Sicily, Italy

Looking for ways to generate new revenue? Then, attending Rajant's Partner Summit is a must! Learn ways to capitalize on the latest market opportunities, network with worldwide partners, and hear our compelling keynote speaker.

REGISTER NOW

With the advantage of this global audience, take center stage by adding on participation in the Summit's **Technology Showcase**. It includes the price of one registration with the bonus of multiple times to display your products and services in a trade show atmosphere.

INCLUDE SHOWCASE

While at the Summit in Sicily, you'll hear this year's keynote speaker **Patrick Filkins** from International Data Corporation (IDC). Patrick has extensively researched the worldwide coverage of Mobile Network Infrastructure and the growing challenges in this rapidly changing landscape. Patrick also knows Rajant technology in the field while serving in the U.S. Military.

See you there May 8th to May 11th.

LISTEN NOW

Connections in Extreme Environments

Confronted with Wi-Fi and LTE limitations for process automation? Or, ever looked at a tunnel, construction site, or warehouse and wondered how bad the internet signal must be? If you need excellent service, it will be powered by the Rajant team, who specialize in making the "impossible" very possible.

Createc Ltd. Establishes Resilience of Rajant ES1 BreadCrumb in Highly Irradiated Environment

Createc Ltd. specializes in helping customers solve technical and human challenges together, vastly increasing the chances of success for nuclear innovators. Critical to their ability to provide these services is the ultra-reliable network Rajant provides. Through a series of four tests in high-radiation environments, Rajant's ES1 BreadCrumb withstood a full exposure to 214 Sv—in excess of 21,000 times the annual limit for nuclear workers.

CEO TRAVELS

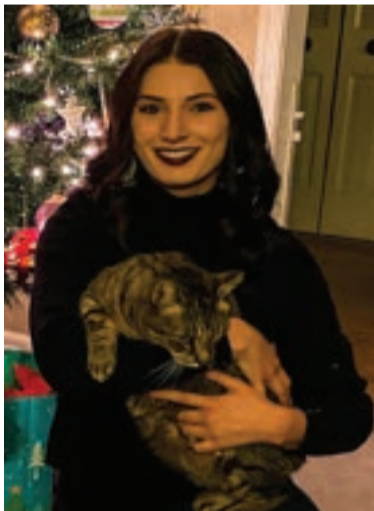

Where in the World is Bob?

Bob Schena, Rajant's Charman, CEO, and Co-founder, is touring the world—all in an effort to give back. This week, he's still traveling. And those who correctly guessed his location are in the running to secure \$2,023 for the charity of their choice.

Follow along on Bob's travels by watching our LinkedIn page.

MEET THE TEAM

Megan Litschi Human Resources, Generalist

What attracted you to Rajant?

I was interested in Rajant Corporation because I was seeking to expand my skills as a professional. At Rajant, I am welcome to work on any task I express interest in or would like to learn more about. I enjoy working in environments where I can

wear many hats, and I feel I can do that at Rajant.

What is a typical day like for you at Rajant?

At Rajant, I serve as one of the points of contact for any and all things Human Resources related. I play a role in interviewing, hiring, benefits administration, payroll, visa and work sponsorship, onboarding and orientation, etc.

What do you like most about your job?

What I like most about my job is delivering good news. Whether it's telling an employee they have been chosen for a work visa, telling a candidate they are being offered a job, or telling an employee a daunting hospital bill is being taken care of by the insurance company. I love giving good news.

What would you say to someone considering a career at Rajant?

Rajant is a place for driven, ambitious, determined folks so don't be afraid to push yourself and show your true potential. Ask questions, be willing to learn, and look for different ways to get involved.

What do you like to do when you aren't working?

When I am not working, I enjoy spending time with my husband, Patryk, our three cats, and our Dachshund. I am an avid outdoors person, and I enjoy skiing, snowboarding, hiking, kayaking, and road-tripping.

What was your first job?

My first job was working as a lifeguard with Sparkling Pool Services! I kept this job throughout high school and college, and it became the place where I began working in Human Resources.

Who is someone you admire and why?

I really admire my dad, Michael. My father was a quirky and very bold man who always spoke his mind. Everyone who had the pleasure of knowing him loved him dearly. He was an avid animal lover and outdoorsman who knew how to have fun and never let the bad stuff get him down.

What is your proudest accomplishment?

Buying my first home at 25!

If it's moving, it's Rajant. Industrial Wireless Networks Unleashed.
