RAJANT'S FOURTH WORLD MUSIC BENEFIT

Giving Back: Rajant's World Music Benefit

The Rajant team is eagerly gearing up for the fourth annual Rajant World Music Benefit, happening at World Café Live on October 26th. This year's event will benefit the Children's Hospital of Philadelphia, and our goal is to raise \$100K for pediatric patients with life-threatening heart and lung problems.

MEET THE TEAM

Kaitlyn Muncy Quality Director

Where did you work before Rajant?

Before Rajant, I was an assistant manager at an assisted living facility in Morehead.

What attracted you to Rajant?

Just a few years out of college and still unsure of what I wanted to do for a career, the uniqueness and success of Rajant Corporation is what really drew me in. Once I heard about the job opportunity and after doing some research, I knew Rajant would be a great company to work for.

What do you do at Rajant? What is a typical day like?

As the Quality Director, it seems like my days are never the same. I oversee the day-to-day quality functions related to our production process. I am also responsible for maintaining our Quality Management System that we use to be ISO9001 certified here in our Morehead facility.

What do you like to do when you aren't working?

When I am not at work, you can most likely find me at a softball field somewhere. Between being a coach for our local high school and my daughter playing travel softball, most of our free days are spent on a diamond.

What do you like most about your job?

I love how Rajant is family oriented and truly cares about your health and wellbeing.

What would you say to someone considering a career at Rajant?

If someone was considering a career with Rajant, I would tell them it would be a wonderful opportunity for them. Even if they aren't completely sure what their career path looks like, Rajant will help you explore all of your options and place you into a job where your skills will be utilized the most.

If you could pick up a new skill in an instant, what would it be and why?

I would love to be more musically inclined. If I could pick any instrument to play, it would be the drums or piano. I have always been so intrigued with both; I've just never taken the time to learn.

What book are you reading right now? What drew you to the book? Any thoughts on what you've read so far?

I am currently reading "Fairy Tale" by Stephen King. King is a great author and when this new thriller was released, I knew I wanted to read it. I enjoy suspense in any novel or even movie so I knew I'd like this one.

What are three things you have accomplished on your bucket list?

My favorite bucket list item that I have accomplished so far would be free diving with sharks. I have gotten to do this twice so far and I could do it over and over again. I've gotten to swim with sharks such as bull, lemon, sandbar, dusky, silky, and Caribbean reef. I have also swam with dolphins and been skydiving.

MEET US THERE

October 31st-November 2nd
Sydney, Australia

November 6th-November 8th
Las Vegas, Nevada

November 1st-November 3rd
Balikpapan, Indonesia

CONTAINER TERMINAL
AUTOMATION CONFERENCE
NORTH AMERICA

November 14th-November 15th
Virginia, USA

If it's moving, it's Rajant. Industrial Wireless Networks Unleashed.
