sKyact.Switch
On/Off Wi-Fi Actuator

IoT ACTUATORS

The sKyact.Switch device controls electrical circuits and is designed to be installed in a standard wall box, behind outlets and light switches, or in other small spaces.

Equipped with Wi-Fi connection, it receives commands from the server to automatically turn on/off electrical circuits

Product Features	
Product Code	50.100003.001
Power Input	110-240 V 50/60 Hz CA, 24-60 V CC, 12V CC
Maximum Load	16 A/240 V
Operating Temperature	-40°C - 40°C
Communication Protocol	802.11b/g/n
Radio Signal Power	1mW
Frequency	2.4GHz - 2.5GHz
Operating Radius	30-50 mt LDR GL5516 5kΩ - 0.5MΩ
Dimension	41x36x17 mm
Power Consumption	<1 W
Warranty	1 year
